

LED SQUARE PANEL LAMPS PRODUCT SERIES DATASHEET

LED Square Panel Lamps

88Light LED Square Panel lamps are slim, light and handy, with high brightness and easy to install. It's ideal for different many indoor applications, such as Home Lighting, Commercial Lighting and Public Lighting.

Brighter and highly efficient SMD LED chips are used as light source, generating higher light intensity and energy saving up to 50%.

This product is CE RoHS, FCC approved.

Applications:

Office

Residence

Living Room

Hotel

School

PRODUCT FEATURES

- Its unique extruded aluminum slim design allows higher heat dissipation and lowers the light decline.
- High quality Epistar LED chip integration provides a higher anti-static resistant and brightness distribution and high quality light effect, lighting comes all around into light guide panel.
- Instant start, no UV, heat radiation, no electric wave, no flickering, no humming, it's an ideal green and environmental lighting.
- New inner high efficient heat protection system, with a constant current driver that can work under unstable voltage. With a wide working voltage range, low power consumption, and low heat dissipation, no potential safety hazard.
- Recyclable materials no such hazard for lead or Mercury enter the environment and Independent external driver and the driver can be replaced easily when it failed, without replacing the entire product.
- UGR<19 options, making a comfortable working environment area when it is used.
- With top-quality SMD LED and good heat dissipation, assure a long life-span.
- Available as dimmable or non-dimmable for additional energy savings and room ambience control.
- TUV CE RoHS Certification.

LED SQUARE PANEL LAMPS PRODUCT SERIES DATASHEET

PRODUCT INSTALLATION

Precaution: Switch off power before start any works.

Method 1. Suspended installation.

1. Drill four holes on the position where the panel will be suspended.
2. Embed the wall plugs and screw the fixing.
3. Repeat step 2 for four fixtures.

4. Fix the steel cords pendants to the back of panel.
5. Screw the other end of the steel cords to the fixture on the ceiling.

6. Connect the power cable to the power supply.

LED SQUARE PANEL LAMPS
PRODUCT SERIES DATASHEET

PRODUCT INSTALLATION

Method 2. Embedded installation

1. Cut an open hold on the ceiling where the panel light will be installed.
2. Embed the panel light into the ceiling open hole.
3. Connect the power cable to the power supply power.

Hard-wired Driver connection:

Installation of Dimmer controller for dimmable panel lamp.

LED SQUARE PANEL LAMPS PRODUCT SERIES DATASHEET

SAFETY

1. **Always** consult a qualified, licensed electrician prior to the installation of this product.
2. **Always** ensure that all components are joined properly before they are installed.
3. **Always** switch off power of the mains supply or respectively of the connection lead before doing any works.
4. Please read the User's Manual Carefully before using.
5. Please reserve the User's Manual for future reference.
6. Please use the panel with standard working voltage, any other voltage is not allowed.
7. Please install the product according to the location of cable and room.
8. Please take care of **Fire, Electric Shock** and **Spill**.
9. Please do not turn on high voltage power before using, and ensure the lamp earthing.
10. Any non-professionals are not allowed to disassemble the lamp.
11. LED products are continuously being improved upon in ever-shortening manufacturing cycles. LED color temperature (kelvin), lumen output, and product appearance can change from order to order. Please note that variation in color temperature (kelvin) is commonly +/- 250k and brightness (lumens) is +/- 10%.
12. Indoor use only.
